Community Learning Centers

## OASD Community Learning Centers January 2021: Issue 4

---

### Welcome Back!

We are so excited to see all of the students back in school and have Lighted School House up and running! We've missed you all so much! Friendly reminder that the doors will still be locked for pick-up, so please call your school's CLC Site Phone when you arrive.

### NEW PAWSibilities Partnership

Lighted School House at Webster Stanley Elementary is starting a new partnership project! We will be partnering with N.E.W. PAWSibilities dog rescue in Oshkosh! Students will be learning about dogs, what rescues and humane societies do, and have the opportunity to make a fleece blanket to donate to the rescue. A staff member from N.E.W. PAWSibilities will host a Google Meet with the students during the program to talk about what their rescue does, how to act around dogs, and other safety and training tips.

### Wednesday Tutoring

Virtual Wednesdays give us the opportunity to offer tutoring! If you are interested in tutoring for your child/ren, please contact your Site Coordinator!

**\*This program is funded in cooperation with the Oshkosh Area School District and the Wisconsin Department of Public Instruction 21st Century Community Learning Center Grant Program.\***
